 	<b>NUMATICS - Air Valves; Actuators; Air Preparation–Dryers; Motion Control; Fittings; Flow Controls; Mufflers</b>		
	<p><b>ALADCO</b>® is the manufacturer of Pneumatic Check Valve Brands: Nu-Check®, Dual-Check®, Clean-Check®, Air-Fuse™, Balance-Check™, and Equa-Check™; Grip-Clamp® Heavy-Duty Automation Grippers, Roller-Cam Clamp™ for Jigs &amp; Fixtures and special machine accessory components</p>		<p><b>ENERTROLS</b> - Industrial, Shock Absorbers, Elastomer Bumpers, Gas Springs, Hydraulic Dampers</p>
	<p><b>ASCO Solenoid Valves</b> The solenoid is an electromagnetic part of a valve, comprised of a coil, core tube, core and enclosure. ASCO Redhat brand offers the worlds largest selection of 2-, 3- and 4-way solenoid valves, designed to handle the most demanding fluid control applications.</p>		<p><b>EVER-FLEX</b> - Pinch valves. Full line opening. Unobstructed flow - clog Resistant - Low pressure drop - Positive "Bubble tight" shut off - more ..</p>
	<p><b>Aurora</b> - Aluminum, Brass, Stainless Steel body Cylinders (3/4" - 3" Bore, Depending on Series) rated for Hydraulic Duty as well.; Volumetric Pumps; Various Accessories</p>		<p><b>HEDLAND</b> - product line has grown to over 15,000 flow meter models including turbine flow meters, transit time ultrasonic flow meters, switches and transmitters. We provide cost effective flow measurement in the following applications: oil, phosphate esters, water, water-based fluids, air, and other compressed gases.</p>
	<p><b>Camozzi</b> Push-to-Connect Fittings, Valves (Quick exhaust, Check &amp; Foot Pedal). Complete Line of Metric Components</p>		<p><b>JOKAB SAFETY</b> has successfully provided safety systems for robotic cells, automated production and assembly lines, conveyor and material handling systems, power and hydraulic press operations, welding lines, wood-working machinery, packaging equipment, food processing equipment, extruding machinery, plastic or rubber molding machines and many other types of machinery.</p>
	<p><b>Canfield Connector</b> offers a wide selection of quality electronic devices, including DIN 43650 connectors, distribution boxes, electronic timers, sensors and more</p>		<p><b>Spartan Scientific</b> - proudly manufactures quality DIN-style solenoid valves for general as well as special and custom design applications. Our solenoid valves include control valves and automatic condensation removal drain valves</p>
	<p><b>Coilhose Pneumatics</b> - is the Industry's Leading Manufacturer of Air Tool Accessories and Air Line Controls. From hose and tubing to blowguns to FRLs to quick disconnects, we have it all. We pride ourselves on providing unsurpassed quality, superior product design, outstanding customer service, and a vast array of products.</p>		<p><b>Tel-Tru</b> is a World-Class manufacturer of bimetal thermometers, pressure gauges, and transmitters. Our focus has always been to meet customers' requirements with quality products, leading technology and responsive service. Our products are available through a network of distributors, in the United States and around the world.</p>
 Proximity Switches	<p><b>Contrinex</b> - produces a wide range of proximity switches, including virtually all the common standardized inductive and photoelectric types. However, our specialty is highperformance devices. Advanced high performance developed using innovative techniques. That's why the Contrinex product range stands head and shoulders above the rest</p>		<p><b>VACCON</b> - Vacuum Generators, Material Transfer, Air Amplifiers, Vacuum Cups and Accessories</p>
	<p><b>EMX</b> - Designers &amp; Manufacturers of sensors &amp; accessories for gate, overhead door &amp; parking barrier operators. Specialization in Sensors that detect the presence &amp; motion of vehicles as well as people, active participants in the UL Committee on UL 325 Specs</p>		<p><b>NB</b> is an international leader in the world of linear motion technology. Since its founding in 1939, NB has emerged as the leading manufacturer of high quality linear motion products in Japan. Through worldwide exposure, we are now setting new international standards for performance and quality control industry wide. Our growth and high degree of product acceptance can be attributed to unique product designs, attention to detail and fresh approaches to meeting the linear motion needs of our valued customers</p>
